

to protect both the patient and the rescuer.

Laerdal CPR Barrier Device Solutions

For all your CPR Barrier Device needs...

It's up to every family member, co-worker, security guard, school nurse, friend and stranger to step in and take the appropriate action to help save a life before the ambulance gets there!

And it's Laerdal's mission to help save those lives by providing the high quality products that continue to improve the quality of CPR. Ever since 1969 when Laerdal introduced the very first folding Pocket Mask, we have created, supplied, and improved CPR solutions that protect and help both the patient and the rescuer.

We have everything you need to help give patients the best possible CPR. That's why all you need is Laerdal for all your CPR Barrier Device needs.

Laerdal Pocket Mask

The Laerdal Pocket Mask is a world-leading CPR mask!

The Laerdal Pocket Mask incorporates a one-way valve and 3M™ Filtrete™ filter allowing for effective ventilation and outstanding user protection. While there may be look-a-likes on the market, there is only one real Laerdal Pocket Mask! Private labeling available.

Laerdal Paediatric Pocket Mask

The most widely used CPR mask in the world is now designed with infants and children in mind.

Utilizing the same low-resistance one-way valve as the traditional Laerdal Pocket Mask in combination with a transparent soft silicone mask, the Laerdal Paediatric Pocket Mask is an excellent companion for the professional rescuer and first responder who have contact with infants and children.

- 820050 Laerdal Paediatric Pocket Mask w/gloves and wipe in Blue/Yellow Soft Pack

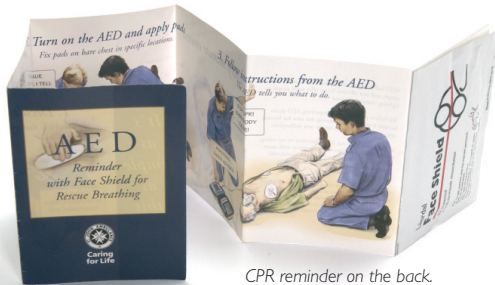

You can now get Laerdal Pocket Mask and Laerdal Face Shield products private labelled for your organization!
