

Ambu® Man Defib

Arms and legs available

Key features

- State of the art integrated wireless technology
- Unique Ambu Manikin Management Module
- Robust and durable
- Real time performance feedback of compressions and ventilations
- Patented Ambu hygienic system
- License free self-training module

Ambu® Man Defib

The AmbuMan Defib manikin is ideal for CPR training. It is equipped with the unique Ambu Manikin Management Module. The manikin software does not require a license and supports all network connection options. The unique Ambu Manikin Management Module provides control, documentation and monitoring capabilities while CPR parameters and training events are documented into a report for debriefing.

The robust stainless-steel chest cage makes AmbuMan Defib an ideal training option for mechanical CPR devices. The chest tension is adjustable for realistic CPR training scenarios. The manikin can be used for defibrillator training with shock capability up to 360 joules. A built-in waveform generator supplies 26 EKG rhythms available for training along with the viewing of a 12-lead and a palpable carotid pulse.

With an airway that only opens with correct head positioning and the patented Ambu hygienic system, training of mouth to mouth and mouth to nose breathing is realistic and avoids cross contamination.

During training, performance feedback is available to the instructor and trainee. After the training, CPR parameters and training events are documented and included in the training report, making debriefing simple and logical.

Optional Additions: IV Arm trainer, IO Trainer, Arms, Legs

Specifications

Connectivity	✓	WLAN or LAN Ambu Wireless Technology built on latest generation of Intel WLAN Modules
Ambu Manikin Management Module	✓	Operating system independent and browser-based control, programmable scenarios, individual documentation for up to 4 participants, parallel display and control of up to 6 manikins, parallel multiple access of various devices for visualization of the performance
Power supply	✓	AC adapter, Battery pack or PoE (optional, not included in packaging)
Defibrillation	✓	Equipped with two electrodes (apex and sternum) that can be defibrillated with up to 360 joules. In addition to the use of manual, semi-automatic and auto-matic defibrillators, paddle can be used.
Pacing	✓	Possibility for transcutaneous pacing
Manual feedback display	✓	Extendable Ventilation volume, compression depth, hand position, stomach inflation

Technical data

Weight torso with transport bag	12 kg
Length torso	80 cm
Length full body	165 cm

Order information

Item number	Description
A 265 407 000	AmbuMan Defib, Torso, integrated Ambu Wireless Technology, Ambu Manikin Management Module 5 Ambu face pieces, 100 disposable head bags, Transport bag / practice mat

Spare parts	
234 000 077	Battery Pack
A 255 001 000	Ambu i.v.-Arm
234 000 706	Upgrade Kit fullbody
234 000 702	Ambu disposable head bags (set of 100)
234 000 703	Ambu face pieces (set of 5)
234 000 725	Ambu Guedel face piece (set of 5)
234 000 794	Transport bag / practice mat

AmbuMan Defib Torso

Monitoring instrument

Ambu Manikin Management Module

Transport bag (practice mat incl.)
