

TANK BOSS

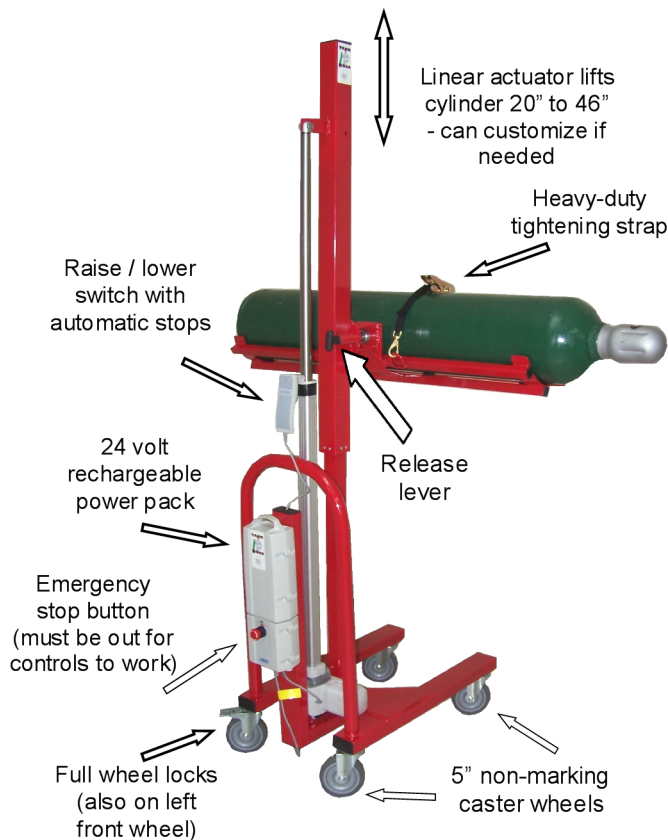

Portable Oxygen Cylinder Lift

Transport, Lift & Load

The **Tank Boss** is an innovative solution for lifting and transporting oxygen cylinders.

This zero-lift device is simple to use, eliminates back injuries caused from lifting cylinders and maintains control of tank at all times. Simply push a button to raise the cylinder, and plug into the wall to charge.

Save time, money and most importantly, save the health of everyone who needs to move and lift oxygen cylinders!

Let the BOSS do the lifting!

Horizontal & Vertical lifts available.
