

King Vision®

Video laryngoscope

Distributed by
Ambu

Key Benefits

Portable

- Disposable blades allow economical use of the King Vision® video laryngoscope for all intubations.
- With the King Vision® you can improve patient care by having high performance visualization capabilities for every intubation, at an affordable price.

Affordable

- The King Vision® is light weight, self-contained, battery operated and water resistant.
- The King Vision® can be used continuously for more than 1 hour making it highly portable.
- Blades are individually packaged. Each blade is disposable, eliminating concerns on cross contamination.

Durable

- Designed to be your primary tool for all intubations.
- Video output capability is compatible with external monitor and recording devices.
- The robust, full-color, non-glare display can resist repeated cleaning and normal use wear and tear.

King Vision® video laryngoscope

Visionary performance in the palm of your hand. We know that reliable performance is a necessity, not an option. When it comes to visualising the airway for routine and difficult intubations, you need a tool that you can depend on each and every time. The King Vision® video laryngoscope is designed with your expectations in mind.

Portable

The King Vision® display is light weight, self-contained, battery operated, and water resistant. The reusable display comes packaged in a protective, foam case. Blades are individually packaged making the King Vision® very portable.

Affordable

The disposable blades allow economical use of the King Vision® for all of your intubations. The low cost per procedure combined with the high performance visualization capabilities make this the perfect value for the best patient care. Take the guess-work out of your intubations. See the vocal cords for every placement. Use the King Vision® for all of your intubations.

Durable

The King Vision® is designed to be your primary tool for intubations. The high-quality, made in America, display comes with a 1-year warranty. The robust, full-color, smudge-proof, non-glare display can resist repeated cleaning and normal use wear and tear.
