

TRS PRO X

Tactical Response Sling

M10118-TB

The TRS™ PRO X tactical response sling is a rapid access sling pack designed for operational and tactical medics who need quick access to critical care trauma and bleeding supplies while providing optional ballistic protection for the user.

Infection control materials designed to easily clean and remove blood borne pathogens

Large front tape plate area for ID customization

Contoured, padded sling strap for comfortable fit and quick turnaround to access main bag

Large front shoulder release buckle

Rear pocket provides optional ballistic protection or fits hypothermia blankets

Panels each have 2 pockets for larger critical care supplies

Inside main pocket fits 4 removable, customizable panels

Black matte finish metal hardware

Front pocket for easy access to QuikLitter™ and triage tags

Paneled with laser cut MOLLE to support any MOLLE compatible gear

Oversized YKK zippers

Low profile carry handles on 3 sides

Low profile design contours your back and rotates around to your front for quick access

Additional removable panels available to create individual TFAK kits

Create individual removable TFAK kits

Additional panels available M10118-TB-C2 (includes 2 panels)

Large internal compartment can be customized with dividers or internal modules
