

## The Monaghan Advantage

- ❖ The original valved holding chamber design
- ❖ Cost effective
- ❖ Anti-static, can be used directly out of package
- ❖ Increased aerosol suspension time
- ❖ Optimized delivery system for consistent medication availability
- ❖ Easy to clean – dishwasher safe
- ❖ Low resistance valve
- ❖ Recommended by leading MDI manufacturers
- ❖ Compatible with most commonly prescribed MDIs

## AEROCHAMBER PLUS® Z STAT® aVHC

The innovator in valved holding chambers, the AEROCHAMBER® brand of valved holding chamber (aVHC) has been trusted by hospitals for over 30 years. The AEROCHAMBER PLUS® Z STAT® aVHC proprietary valve-baffle design increases aerosol suspension time to assist dose assurance of metered dose inhaler medication. The optimally designed anti-static chamber ensures consistent medication availability.

The cost effective choice for hospitals, the AEROCHAMBER PLUS® Z STAT® aVHC combines patient-centric design features that optimize respirable drug dose.

## THE FACTS

The original valved holding chamber has evolved into the AeroChamber Plus® Z STAT® aVHC to interface with improved MDI aerosol formulations and activities. The AeroChamber Plus® Z STAT® aVHC continues to offer the best value for optimal aerosol drug delivery and economic value for hospitals.

Different chambers deliver different amounts of medication.<sup>1</sup> The AeroChamber Plus® Z STAT® aVHC provides a consistent dose of medication substantially equivalent to the MDI dose.<sup>2</sup>

EZ Flow Exhalation Valve minimizes re-breathing and directs exhaled flow away from the patient's face.

FLOWSignal® Whistle alerts patients to breathe slowly.

## THE FACTS (continued)

**Designed to respond to shallow or low volume breathing patterns, the extra-sensitive inhalation valve on the AeroChamber Plus® Z STAT® aVHC makes it easier for patients to inhale the medication.**
